

Capital Stock \$75,000.00

Fifty Acres--Shares \$100 Each

Strike While the Iron is Hot --- You Can Get In Now at Par

Futurity Oil Company

As its name implies, we are playing for the largest stakes in the oil field, and we feel that our chances are good

Your Opportunity is Two-Fold

You are practically assured of shallow production, for we are in the midst of it, and being only one and one-half miles from the now celebrated

Kemp-Munger-Allen Well

OUR CHANCES FOR PICKING UP THAT SAND ARE EXCEPTIONALLY GOOD

EITHER WAY WE GO, YOU HAVE A FIGHTING CHANCE TO WIN. We are putting into this company fifty acres out of the Wiggley Tract, situated in the largest bend of the Wichita River, in Wichita County, and promise you to drill to the K-M-A sand and to start the drilling at the earliest practicable moment.

There is no question but that you will get a square deal. You have trusted us in other ventures and no complaints have been registered.

IF YOU WANT TO TAKE A CHANCE WITH US, DO IT NOW. Strike while the iron is hot—delay may make you miss the Golden Opportunity.

--Take your map, locate the Kemp-Munger-Allen well, measure one and one-half miles northeast to the big bend of the Wichita River—there you will find, we think, another end of the Rainbow—th at pot of gold.

We have no time to get out maps or a prospectus—it will not last long enough. You know the undersigned, they are responsible men.
